

(4.875")

Cygnnet Select is an organic water dye for use in golf course water hazards, lakes, ponds, decorative water features and impounded bodies of water with limited outflow. *Cygnnet Select* improves the appearance of surface water by turning waters a bright blue or blue-green color.

DIRECTIONS FOR USE
Use Rubber Gloves to Avoid Staining of Hands

- Determine water volume (acre-feet) as follows: $\frac{\text{Length (ft.)} \times \text{Width (ft.)} \times \text{Average Depth (ft.)}}{43,560 \text{ sq. ft.}} = \text{Acre - Feet}$
- Apply 0.25 gal. *Cygnnet Select* per acre-foot of water as determined in #1 above.
Acre-feet x 0.25 gal. = Gal. *Cygnnet Select* Required
- Cygnnet Select* may be poured directly into the water at several locations or into streams in recirculating systems to enhance dispersion.
- Additional *Cygnnet Select* may be added, as necessary, to maintain desired coloration.

WATER USE & RESTRICTIONS

- Water may be used for irrigation or fishing immediately following treatment.
- Allow several hours for *Cygnnet Select* to disperse before swimming.
- Treated water will not stain exposed surfaces.
- Treated water will not harm fish, waterfowl, pets or wildlife.
- Chlorinated water will cause fading, requiring higher doses or more frequent treatments.

STORAGE AND HANDLING PRECAUTIONS

- KEEP FROM FREEZING. Freezing can cause container to rupture.
- Concentrated product may be harmful if swallowed.
- Avoid contact of concentrated product with skin, eyes and clothing.
Wash immediately after contact.
- On most surfaces, small stains caused by accidental spillage can be removed with a liquid bleach solution.
- Background water color such as tannic water or muddy water will affect end color of dyed water.
